Jiaqi Xie

McKinsey - Consultant
日本 Kanagawa 横濱

个人简介

I am a digital transformation specialist with extensive experience in cost optimization, data visualization, and on-site data improvement across various industries. My expertise includes leading cost reduction initiatives, such as achieving nearly 10% savings on a 1 billion yen baseline for a financial client in Japan. I have successfully implemented advanced BI tools, enhancing data visibility and operational efficiency for clients in the manufacturing and financial sectors. Notably, I spearheaded the first implementation of a spend analysis solution in Japan and developed customized dashboards using Power BI, enabling clients to unlock the full potential of their data. My skills in procurement, project coordination, and client coaching have consistently delivered tangible results and long-term self-sufficiency.

Skills: Power BI/Tableua, Data Visualization, Procurement Optimization, Project Management, Python
